

OPEN POSITION

UX Researcher

Are you the person who turns product ideas into reality?

Looking to break into LegalTech by joining a product-minded SaaS company? At Corporify, we empower legal teams to claim control over corporate data and to master compliance. We're looking for an experienced Product UX researcher to help us execute our strategic product vision and ensure that our product aligns with our customers' needs.

What will you be doing?

01

Collaborate

Work with the product team to safeguard the quality of the Corporify SaaS solution.

02

Implementation process

Rigorously apply our implementation process from strategy to release.

03

User research

Execute user research and harness internal data to shape opportunities and to make sure that our product delights our customers.

04

Prototyping

Interact with internal and external stakeholders to ensure alignment and buy-in with our product roadmap. Validate novel prototypes and ideas with these stakeholders.

05

Strategic voice

Next to being hands-on, also offer a strategic or advisory voice throughout the design and development stages. Be the internal spokesperson for our users.

What we're looking for

Demonstrated experience in UX research

An inquisitive, analytical mindset

Able to take initiative and claim ownership

Able to represent Corporify in interactions with demanding existing and prospective customers up to C-level

Fluent in Dutch and English. French or any other additional language is a plus

Experience in SaaS and/or the legal tech domain is a big plus

A team player who genuinely cares about the people around them

Why join Corporify?

-  A small, close-knit team with big ambitions.
-  Mentoring and training opportunities to level up your skills.
-  A pleasant working environment on the Upoffiz Ghent campus, with community events year-round. Flexible, hybrid work possible.
-  Regular team lunches, activities and events
-  Solid remuneration aligned with your skills, certifications and experience.
-  Generous PTO
-  A role that grows with you as we scale
